

BARRACUDA

BARRACUDA

Bold and dynamic

The Barracuda pilothouse boat oozes with temperament. She is built on the unique concept of multiple uses, with the interior and exterior layout, choice of hull architecture and engine, and powerful style, available in four different models from 21 to 27 feet. A popular dynamic outboard day boat with good sea-keeping behaviour, she has lots of features that will appeal to keen explorers and divers.

Robust versatile boat

The Barracuda is a tough multipurpose boat and will withstand just about anything, so she is suited to all kinds of programmes. Fast, offering protection and extremely practical, there will be no end to your explorations. Used as a “smart-commuting” boat in some places, she is ideal for daily trips.

First-rate comfort

Our boat designs are based on the rich experience of those who love the sea. The comfort and safety on board are our main focus. The space on board is used very efficiently and profitably. Nothing draws your attention away during navigation and everything you need is within reach of your hand. Her specific hull makes her very responsive when handling, even in a rough sea.

Constant innovation

With highly functional fittings, the new Barracuda 27 marks another milestone in terms of perceived quality. Fuelled by this experience, the Barracuda range is constantly being innovated and adapted.

AirStep®2 Technology

Beneteau’s expertise in hull development has been put to good use on the Barracuda range, with the adoption of AirStep®2 technology. Driving sensations are unrivalled, with quicker acceleration, outstanding sea-keeping behaviour, as well as easy handling of curves and passage through the waves. In addition to its recognized performance, AirStep® technology improves the boat’s energy efficiency.

PERFORMANCE

Faster acceleration, increased maximum speed, better fuel efficiency

COMFORT

“Air cushion” effect at the aft of the hull, linear acceleration, more flexible turns

SAFETY

Exceptional seaworthiness, sailing through waves made easier, optimized turns

AIRSTEP® PATENT: Maud Tronquez, Patrick Tableau, Remi Laval-Jeantet

Outboard engines to the-state-of-the-art

The combination of the Barracuda and Mercury engine brand, provides the ultimate performance, fuel efficiency and reliability for the ultimate navigation experience. All engines benefit from the most advanced technologies in terms of optimization of fuel consumption and less impact on the environment while ensuring the user a real pleasure of navigation.

LEAN BURN

The technology predicts fuel needs according to operating conditions allowing the engine to run on a leaner, more efficient air-fuel ratio and fuel economy.

SELF-ADJUSTING TIMING CHAIN

It never needs lubricating, with benefits of durability.

MULTI-FUNCTION GAUGE

It displays a wide variety of information on a same screen (position and rpm, speed and fuel consumption, fuel flow...).

FishReveal™ Smart Target View

LOWRANCE® HDS CARBON

Premium performance

The goal of LOWRANCE is simple: it is to help anglers catch more fish. In over 60 years, the brand has never deviated from this aspiration. LOWRANCE's performance, innovation and quality will make every fishing trip a success.

POWERFUL PERFORMANCE

Powerful performance that delivers the fastest chart redraws, rapid sonar updates and quicker response times via a dual-core processor.

UNBEATABLE VISIBILITY

High-resolution SolarMax™ HD display, which can be viewed from almost any angle, including in bright sunlight.

OPTIMAL DETECTION

FishReveal™ Smart Target View. Blends the best data from both technologies, Chirp 2D views and DownScan™ imaging.

EASY USE AND CONTROL

An all-weather intuitive touchscreen and expanded keypad for total control in all conditions.

BARRACUDA 21

The adventurous, comfortable and modular Barracuda 21 has a straight pilothouse; one of the reasons it looks so robust. Two layouts are available with around thirty options to customize the boat further. This meticulous designed-in versatility makes her the SUV of the sea.

BARRACUDA 21

05 Large cockpit: 4'3" x 6'8"

01 Clear and safe workspace
(2'6" freeboard height + handrail)

04 Rod Holders (option)

06 Max engine certification: 200 HP

07 Large mooring locker +
vertical electrical windlass (option)

08 Closed additional double berth

10 Sliding rear bay and side access doors

09 Wide safe sidedecks

11 Foldable aft and side
cockpit bench seats

12 Bathing platforms

Inside the pilothouse is a very comfortable driving station and co-pilot's seat, from which there is a panoramic view. The two sliding side doors open directly onto the port and starboard walkways. The driver's seat cleverly rotates to free up space for the galley.

Smart Bright Modular

The cockpit provides the perfect environment for relaxation after a day of adventure. This modular space comes with a folding bench, a round cockpit table and plenty of seating for friends and family.

An astute adventurer

The Barracuda 21 reconciles an adventurous feel with customization. A seasoned fishing boat, she can also be used for more relaxing programmes. From the electric windlass to the cockpit shower, lots of small details make her decidedly comfortable.

13 Additional double berth:
max 5'10" (beam) x 3'11" (length)

The Barracuda's walk-around deck, with a wide starboard and port walkway, makes it easier to move about on board. The bench seat below the pilothouse on the foredeck can be removed in a couple of seconds, freeing up a large amount of space. The Barracuda 23's cockpit is perfect for relaxing and features a cleverly designed mobile multifunctional bench seat as well as a convenient center table. A storage area is located under the seat which slides from front to back. It is a comfortable place to sit facing the sea. Positioned in the centre of the cockpit, it joins the side bench to create a large sunbathing area. Pushed back to below the pilothouse, together with the side benches it offers seating for 8 people around a foldaway table.

Spacious Seaworthy Welcoming

Protected yet open, spacious yet welcoming, the Barracuda 23 naturally embraces Scandinavian architectural and design codes. Brick-red curtains, graphite-hued furnishings, oak tinted woodwork and flooring, and optional teak for the deck covering, make for a cosy atmosphere on board. Her three-leaf sliding doors create a seamless space between the wheelhouse and the cockpit.

Highly convenient

With three possible layouts of the wheelhouse, forward resting cabin and countless storage areas, the Barracuda 23 stands out in its category for its incredible practicality and versatility.

10 Starboard side access gate

- 01 Two dedicated fishing areas
- 02 One 3 door sliding rear bay
- 03 Sun roof
- 04 Two sliding side access doors
- 05 Wide sidedeck

With its 4-seat forward lounge, large walkways and protective pulpits, the Barracuda 27 delivers both safety and comfort. Her panelled freeboards promise comfort during fishing trips, while a starboard side access gate makes drawing alongside and climbing aboard easier.

Adventurous Safe Ergonomic

To the rear of the pilothouse, a large full-beam glass door provides good ventilation. The saloon is cleverly positioned lengthwise so that seats are facing, making movement inside easier. The galley is equipped with a 16 US gal refrigerator. The two-seat driving station has a large console with room for two screens. The door closing off the cabins provides safety for the co-pilot and separates the pilothouse from the other spaces. For enjoyable nights on board, the lower deck has a large cabin and a shower room, as well as a mid-cabin that can be used either as stowage space or for an extra double berth.

Super spacious

With a capacity of up to 10 people, the Barracuda 27 offers a wonderful lifestyle and is easy to drive. With very practical fittings, a high-quality trim and top-notch sea-keeping behaviour you can confidently take to the sea.
